ABOUT ME

Full Stack Developer with 4+ years of experience building production-grade web applications across logistics, healthcare, retail, and HR. Skilled in end-to-end development — database design, REST APIs, and responsive frontends. Delivered billing systems, ERP modules, booking platforms, and enterprise HRMS solutions, both independently and within a team.

EXPERIENCE

Full Stack Developer

2025 - current

Fixing Dots | Raipur

- Working across two HRMS products — FixHR (500+ users) and a customized enterprise build for a major manufacturing client (200+ users)
- Built and maintained 10+ modules including attendance, leave, gate pass, missed punch, employee management, reports, TADA, and approval workflows
- Developed multi-level dynamic approval systems with hierarchy-based routing, conditional flows, and status tracking
- Integrated DigiLocker KYC for employee onboarding and GST validation + company autofill via Sandbox's paid API
- Built REST APIs consumed by mobile apps alongside full web frontend development
- Managed Git-based deployment workflows, Vite builds, and production server configuration for the enterprise client

Full Stack Developer

2023 - 2025

Jiten Softwares | Raipur

- Delivered 8+ projects across industries:
 - Billing & logistics management system for bulk material businesses
 - Loan management platform for group-based microfinance
 - Dance class scheduling and fee management software
 - RTO renewal and insurance tracking system
 - Website + PWA for a bathroom products manufacturer (includes a staff sales management app)
 - Dynamic website for a multispecialty eye hospital
 - Website for a cleaning services & products company
 - An advanced version of the logistics billing system with expanded features

Junior Full Stack Developer

2022- 2023

Trinity Solutions | Raipur

- Built a full e-commerce platform with 200+ products, inventory management, and Razorpay payment integration
- Developed a farm discovery & booking platform with an availability calendar and online payments
- Delivered 5+ business software products: billing system, multi-level marketing software, gym management (attendance & subscriptions), and a client & quotation management tool for a professional photographer
- Built 6-8 dynamic, responsive client websites across various industries
